

# PrEP in Norway- it is never easy...

- Laws and regulations:
- “Reimbursement of drugs for prevention of communicable diseases”
- serious communicable disease(HIV) and prevention of this disease must be treated free of charge.
- Law on communicable diseases § 6-2. Free services and measures :The Ministry may decide that services or measures under the law shall be free of charge for those who are at risk of communicable diseases or already have the diseases.
- 2 years of lobbying, the healthminister introduced PrEP fall 2016, still funding difficulties, all HIV/PrEP-prescriptions have to go through hospitals, hospitals are not fully reimbursed by the state for HIV/PrEP medication, hospitals are not reimbursed for PrEP-followups.
