Migrant MSM & PrEP

Marc Thompson
prepster.info
Migrant MSM

• Who are ‘Migrant’ MSM? Are we thinking widely enough?

• What are the challenges and barriers for them and us?

• How do we ‘fix’ it?
Challenges around Migrant and BME MSM and PrEP

- Not engaged with the PrEP or HIV treatment conversations in general
- Health care professionals lack of understanding of these men
- Low levels of knowledge about PrEP
- Stigma and cultural factors
- Not represented/targeted in health promotion
- Not a ‘priority' for them
- Not engaged in clinical trials and studies
PROUD Study

- White MSM
- Black MSM
- Asian MSM
• Men aren’t ‘hard to reach’
  Are we looking in all the right places?

• How easy are we to engage with?

• How do we become more inclusive and welcoming?
#PrEPForHer

DOMINATE
your sex life

PrEP is a safe, daily pill that helps prevent HIV.

PrEP
ONE PILL. ONCE A DAY. Protect against HIV.

PrEP
ONE PILL. ONCE A DAY. Protect against HIV

PrEP is a pill to prevent HIV. Get tested and ask about it.
My PrEP story:

Phil
